OBJECTIVE

Motivated second-year Computer Engineering student seeking a summer internship to apply theoretical knowledge of Java, Python, Flutter and modern web frameworks to real-world projects. Eager to contribute to software development teams while strengthening technical skills and gaining professional industry experience.

EDUCATION

Turkish Aeronautical Association University, Ankara

Computer Engineering | GPA: 2.78

PROJECTS & TECHNICAL EXPERIENCE

At POSINOWA, completed a 6-month remote internship-style experience in software development.

AISigner – AI-Assisted Mentorship Platform | *Next.js, TypeScript, Node.js, PostgreSQL, Prisma*

- Full-stack platform connecting students with mentors; built role-based dashboards (Admin, Mentor, Student) with NextAuth authentication.
- Implemented multi-step student onboarding form with profile analysis and admin panel for user management, mentor assignment, and project template CRUD.
- Integrated Prisma ORM with PostgreSQL; deployed using Docker Compose. Contributed 66+ commits across responsive UI and server actions.

Aloah – Community-Driven Mobile App | *Flutter, Dart, Firebase*

- Mobile app connecting local businesses with communities for engagement and mutual support.
- Built responsive UI with Flutter for iOS and Android; integrated Firebase backend for real-time data management.
- Collaborated with team in iterative development cycles.

Hospital Management System | *Java, HTML, Object-Oriented Design*

- Comprehensive system handling patient care, medical records, appointments, and administrative workflows.
- Applied OOP principles and database design best practices.

NekiBuKi – Price Tracking Application | *Python, Data Analysis, Web Scraping*

- Application for monitoring product prices and tracking changes over time.
- Implemented web scraping and data visualization features for price analysis and trend tracking.

TECHNICAL SKILLS

Languages: Java, Python, SQL, HTML/CSS, Dart, TypeScript

Mobile Development: Flutter, Dart

Web Development: Next.js, React, Node.js, TailwindCSS

Databases & Tools: PostgreSQL, Firebase, GitHub, Prisma ORM, Docker, VS Code

CERTIFICATIONS & LANGUAGES

Certifications:

- Backend Web Development (Java)
- AI Fluency: Framework & Foundations
- Network Fundamentals (Ağ Temelleri)
- Introduction to Computer Networks (Bilgisayar Ağlarına Giriş)
- Advanced Network Technologies (İleri Ağ Teknolojileri)

Languages: Turkish (Native), English (Reading, Writing, Speaking – Good)
